Villa Settimo Cielo

📍 Porto Rotondo, Sardegna

Settimo Cielo is located in a magnificent location in Porto Rotondo and dominates the bay of Punta Lada. The designer managed to skillfully blend the local architecture with an articulated modern design. The exteriors are totally marked by the full vision of the surrounding nature, really resounding! An explosion of blue as far as the eye can see, Mediterranean maquis and profusion of buganville, all naturally enhanced by the candour of the structure. The large and well-kept garden leads to the rocky landing and not far from the Algae Beach. The sinuous shape of the pool, the various outdoor areas furnished with convivial space and relaxation give intimacy and joy, where it will be really easy to feel in seventh heaven!
