Stazzo Sergio

 San Pantaleo, Sardegna

Typical stazzo completely renovated at the beginning of 2023, located in the center of the village of San Pantaleo. A few steps to access the spacious interiors, divided between the living room with open kitchen. The sleeping area has two comfortable and large double bedrooms with ensuite bathroom with shower.

The exteriors are clad in the original stone typical of the stazzo, while the interiors have been deliberately recovered from the original walls in straw-colored granite from San Giacomo, which create a warm and welcoming atmosphere. The whole house breathes the love that the owners have poured into the careful and harmonious renovation.
